## **Political Map of Europe**

**DIRECTIONS**: Using the data table beginning on p. 268, fill out the "Capital" and "Population" information. If you don't see the country on the data table, then look in the <u>INDEX</u> at the back of the book for information on the country you are searching for. Also, match the number of each country on the map to its name under the "# on Map" column. Using the map on p. 288, fill out the information related to "Subregion". If the country is not associated with a subregion, then put "N/A". Finally, lightly shade each country a different color to help tell them apart. You may use colors more than once as long as they are not right next to each other on the map.

| COUNTRY              | CAPITAL | POPULATION | SUBREGION | # ON MAP |
|----------------------|---------|------------|-----------|----------|
| Albania              |         |            |           |          |
| Andorra              |         |            |           |          |
| Austria              |         |            |           |          |
| Belarus              |         |            |           |          |
| Belgium              |         |            |           |          |
| Bosnia & Herzegovina |         |            |           |          |
| Bulgaria             |         |            |           |          |
| Croatia              |         |            |           |          |
| Cyprus               |         |            |           |          |
| Czech Republic       |         |            |           |          |
| Denmark              |         |            |           |          |
| Estonia              |         |            |           |          |
| Finland              |         |            |           |          |
| France               |         |            |           |          |
| Germany              |         |            |           |          |
| Greece               |         |            |           |          |
| Hungary              |         |            |           |          |
| Iceland              |         |            |           |          |
| Ireland              |         |            |           |          |
| Italy                |         |            |           |          |
| Latvia               |         |            |           |          |
| Liechtenstein        |         |            |           |          |
| Lithuania            |         |            |           |          |
| Luxembourg           |         |            |           |          |
| Macedonia            |         |            |           |          |
| Malta                |         |            |           |          |
| Moldova              |         |            |           |          |
| Montenegro           |         |            |           |          |
| The Netherlands      |         |            |           |          |
| Norway               |         |            |           |          |

| Poland                                |  |  |
|---------------------------------------|--|--|
| Portugal                              |  |  |
| Romania                               |  |  |
| Russia                                |  |  |
| San Marino                            |  |  |
| Serbia                                |  |  |
| Slovakia                              |  |  |
| Slovenia                              |  |  |
| Spain                                 |  |  |
| Sweden                                |  |  |
| Switzerland                           |  |  |
| Turkey                                |  |  |
| Ukraine                               |  |  |
| The United Kingdom<br>(Great Britain) |  |  |

## **Physical Map of Europe**

**DIRECTIONS**: Match the numbers on the map with the following physical features of Europe.

| PHYSICAL FEATURE       | # ON MAP |
|------------------------|----------|
| The Alps               |          |
| Pyrennees Mountains    |          |
| Ural Mountains         |          |
| Apennine Mountains     |          |
| Mont Blanc (Mt. Blanc) |          |
| River Seine            |          |
| Rhine River            |          |
| Danube River           |          |
| Rhone River            |          |
| Volga River            |          |
| Atlantic Ocean         |          |
| Arctic Ocean           |          |
| Mediterranean Sea      |          |
| North Sea              |          |
| Black Sea              |          |
| Baltic Sea             |          |
| English Channel        |          |
| Strait of Gibraltar    |          |
