

Test Review

Unit 1/Unit 2 Combo Exam

Know the following:

Unit 1 – Basic Geography

Latitude – which hemispheres do these lines measure?

Longitude – which hemispheres do these lines measure?

How do you find absolute location on a map using the coordinate grid system? You will be given points on a map and be required to give the correct coordinates.

What is the difference between absolute location and relative location?

What are the THREE types of maps? You will be asked to identify examples of each of the three types of maps.

Small Scale – give an example.

Large Scale – give an example.

What is the purpose of a map projection?

What are the benefits and disadvantages of globes & maps?

What are the Five Themes of Geography? What are the questions each theme asks?

Vocabulary:

Equator, Prime Meridian, latitude, longitude, globe, map, map projection, hemisphere, absolute location, relative location, large-scale, small-scale, political map, physical map, thematic map

Unit 2 – Canada Test Review

PHYSICAL GEOGRAPHY and NATURAL RESOURCES

What are the different landforms found in Canada?

Know:

- *The landform regions and key facts about each (from the lecture note table you created)*

What are the four main types of important natural resources found in Canada?

Know:

- *The natural resources and key facts about each (from the lecture notes)*

Helpful Questions to consider:

What are some key differences between the Appalachian Mountains and the Rocky Mountains?

Why are the Interior/Great Plains so important to North America?

Where is the Continental Divide? What is it?

What problems has Canada faced as a result of so much of its land being the Canadian Shield?

How does climate affect where people settle and build cities?

Where have Canadians chosen to settle and build their cities?

How is Canada's access to water an important link to its economy? What is the name of the important link between the Great Lakes and Atlantic Ocean? Why was this link constructed?

How have Canada's natural resources helped it to become a wealthy country?

Why do you think there are so many cities in the eastern part of Canada?

Why does Canada have two official languages?

Where do a majority of the French-speaking Canadians live?

SUB-REGIONS

- Know the provinces found in each of the four sub-regions
- Know some climate and vegetation information for each
- Know some economic factors/industries of each (i.e., How do they make their money?)

TABLE, CHARTS, & GRAPHS PACKET

Finish your "Canada Demographics Activity" packet (the graphs, charts, and table) to answer questions about Canada.

VOCABULARY

Prime Minister, parliamentary republic, democratic republic, province, permafrost, St. Lawrence Seaway, Canadian Shield, Continental Divide
