

Africa Current Event Project

You have heard about the many horrible things that are happening in Africa and you are going to create a company to raise awareness. Your company is responsible for creating a product to raise awareness and money for a current event/issue facing Africa. You can choose how you do this. You could design plans for a website, t-shirt, beverage, clothing company, etc. Use your imagination! You don't have to physically make the item, but design it and come up with a company motto, etc.

In your project you must include:

- What current event and/or issue happening in Africa.
- Explain the event/issue. Why is it happening? Where? Why should we care/ help?
- How is your project going to help the people?
- What would your money go to? What exactly needs to be done to fix the issue?
- Examples of things European's did during colonization that caused the country to be unstable or that caused the conflict to occur today.

*Example, the genocide in Darfur was set up by European's giving power to one group of people and not creating a stable government and/or infrastructure before they left Sudan.

You will present your ideas this week!!!!

Make sure you use detail and research for your project!
