

White Cloud

Interviewer: Steven G. Tebor (7/7/87)

Interview with Ephrain Che, whom witness the release of gas from Lake Nyos the evening of August 21, 1986. Ephrain observed the “white cloud” from Nyos Palace, which is located above the lake.

Ephrain, that night from the Palace, did you also see this light the cloud produced?

- **Yes, the scientist questioned me about the light and wrote my reply in his book. It was like electricity.**

There was no moon that night, correct?

- **Yes, there was no moon. The cloud looked like it was electric (glowing).**

How did you see the moon if there was no moon?

- **There was no moon that night.**

So, there was no moon for that month?

- **Yes, for the month of August.**

There was no moon but you saw a moon?

- **Yes**

Something was making a light?

- **Yes, it was like there was a light.**

Thank you
